Riptide: For the 19 Oct 1950 index, pages are numbered in the sequential order as they appear on the microfilm.

The Twin Lakes Moon is not available on microfilm; it is only available as a hard copy GeneSoc CALIF./ SC78 on the Genealogical Society library stacks.

It is important to understand that not all of our hard copy data has been digitized (most importantly, births, marriages, and deaths); therefore it is not in this posted index. Publications that were digitized by the GSSCC and are in this online index include:

Sentinel: 1884-1885, 1940-1960
Santa Cruz Evening News: 1928-1931

These books are available on the Genealogical Society library stacks also.

Some of the data in this posted index was added after the non-digitized or the above hard copy indexes were published (i.e., added new material).

The primary years covered are 1856 through 1965. A small amount of data, 1966-2016, has also been included.

It is still necessary to refer to the non-digitized or hard copies found on GeneSoc stacks in addition to this online index. Hard copies in the Genealogical library stacks include these printed indexes:

Sentinel: 1856-1885; 1940-1960. Surf: 1883-1919. Santa Cruz Evening News: 1919-1941.
